

Here is the crime report for tonight's Parish Council meeting, [16/07/15] there has been one crime of note since your last meeting

On 20/06/2015 a set of keys were taken from a jacket which had been hung up at the Suffolk Barn, Hawstead whilst the victim was attending a wedding at the location, no suspects known for this crime.

We are still experiencing shed, garage and house burglaries in our area and there has been an increase in thefts of catalytic converters in other areas so can I please ask for any suspicious activity to be reported to the police, it may be that the persons seen are genuine, but I would sooner be asked to check out someone who is a genuine than not be called and miss the opportunity to stop a crime in progress or apprehend an offender whilst he is committing a crime.

Many thanks for your help

Regards Rob
